Service Agreements

Target - Mechanical Service Agreement

12% 1 of 8 Visits completed

Scheduling Notes

12% 1 of 8 Visits completed

Visit Name	Visit Window	Location	Job #	Job Type	Prepayment Status	Actions
Major Service	03/01/2026 - 06/31/2026	Target - Thousand Oaks	Book Job	HVAC Maintenance	None	Actions
Minor Service	07/01/2026 - 09/30/2026	Target - Thousand Oaks	Book Job	HVAC Maintenance	None	Actions
Major Service	10/01/2026 - 12/31/2026	Target - Santa Monica	Book Job	HVAC Maintenance	None	Actions

PRODUCT OVERVIEW

See Service Agreements in Action

The Service Agreements Dashboard gives you a quick overview of who and which locations are covered, how many visits are left, and where you're at with billing — with a detailed breakdown of budget vs. actuals.

Setup

To get started with service agreements, account configuration is required. Set up your agreement templates, visit templates, and document templates to save time and create agreements for your customers.

SETUP CHECKLIST

Enable Service Agreements

Please reach out to your Customer Success Manager (CSM) or contact [Technical Support](#) to enable Service Agreements in your ServiceTitan account.

Create Service Agreement Templates

[Set up templates](#) to save time and create agreements for your customers. Also [activate or deactivate templates](#) as needed.

Create Visit Templates

[Create visit templates](#) to save time and apply them during the Scope of Work step. Settings configured here are applied to all agreements created from the template.

Create Document Templates

Create a clear and customized [document template](#) specifically for your service agreements. Add e-sign, import/export templates, and manage document template components.

CONFIGURATION

REQUIRED

Account configuration is required to get started. Contact your Customer Success Manager (CSM) or Technical Support for details.

AFTER SETUP IS

COMPLETE

Manage visits, invoices, track profitability, and handle material procurement — all from the Service Agreements Dashboard.

Set Up Templates

Start using service agreements by setting up templates.

Create Service Agreement Templates

Create templates that you can use later when creating service agreements for your customers.

- [Add or edit a service agreement template](#)
- [Activate or deactivate a service agreement template](#)
- [Set up deferred revenue for service agreements](#)
- [Create custom fields for service agreements](#)

Create Visit Templates

Create visit templates to apply them during the Scope of Work step when creating service agreements. The settings configured here are applied to all service agreements created from the template.

- [Create or edit visit templates for service agreements](#)
- [Activate or deactivate a visit template for service agreements](#)
- [Add visit templates to service agreements](#)

Create Document Templates

Use this feature to create clear and customized document templates from the ground up, specifically for your service agreements.

- [Create document templates for service agreements with Template Manager](#)
- [Understand document template components in service agreements](#)
- [Add E-Sign links to service agreements](#)
- [Import and Export document templates with Template Manager](#)
- [Manage document template components in Template Manager](#)

Key workflows

Core workflows for creating, managing, and reporting on Service Agreements.

 Create Service Agreements

 Manage Service Agreements

 Manage Service Agreements Visits

 Follow-Up on Service Agreements

 Run Reports on Service Agreements

- [Overview of the Service Agreement Exception Dashboard](#)
- [Report on service agreement profitability](#)
- [Create custom reports for service agreements](#)

FAQ

Frequently Asked Questions

Take a look at the top FAQs regarding Service Agreements.

How can I enable the Service Agreements features for my account? 

This feature requires account configuration. Please contact [Technical Support](#) for details.

How do I create a new proposal? 

From the *Customer* or *Location* screen, select **Create Agreement** to enter the proposal creation workflow.

What are Visits and how are they different from Jobs and Appointments? 

Visits are best thought of as placeholders for future Jobs and are used to plan the schedule of service for an agreement.

Visits are booked into Jobs, which can then be broken out into Appointments, if necessary. Once a Visit has been booked into a Job, all of ServiceTitan's existing job functionality becomes available: Job Summary, Preferred Technician, scheduling information, Job Invoice, and more.

Where are the Actual Costs for each Visit defined?

Labor (Actual Cost): the sum of the LaborPayItems amounts from the job associated with the Visit.

Burden (Actual Cost): the sum of the LaborBurdenItem amounts from the job associated with the Visit.

Materials (Actual Cost): the sum of the cost of the materials items added to the job invoice associated with the Visit.

What is the difference between memberships and service agreements?

Both memberships and service agreements are designed to provide businesses with a steady flow of income in addition to getting technicians back onsite to identify upsell and replacement opportunities. For more details, see [Understand differences between memberships and service agreements](#).
